

Insects Control:

Insects can be a problem and cause damage to turf grass as well as to shrubs and trees. White grubs, Billbugs, Mole Crickets, Chinch Bugs, Army Worms, Ants and others are turf damaging insects. Aphids, Fall webworms, Holly Leafminer, Wax Scale, Cottony Maple Scale, and Twolined Spittlebug are just a few of the insect that can be damaging to shrubs and trees.

Did you know? If you have damage to your turf caused by moles, armadillos, raccoons or other animals chances are you have some type of turf inhabiting insect.
